EDUCATION

Kalinga Institute of Industrial Technology

BTech in Computer Science and Engineering with CGPA: 9.46

August 2022-Present

Odisha, India

Delhi Public School, Ranchi

Intermediate with percentage: 90.6%

2020-2022

Jharkhand, India

PROJECTS

1. Foodigy (Food-delivering Webapp front-end using React.js)

Tech Stack Used: React, Tailwind CSS

- o The website features a **configuration-driven user interface and utilizes the Swiggy API** to fetch restaurant and menu data. It is a demo website for a food delivering company, showcasing key features like a config-driven UI, routing, **Shimmer UI**.

2. AlgoArena | MLSA KIIT Chapter

Tech Stack Used: Next.js, Tailwind CSS, Prisma, MongoDB

- o AlgoAren is a team project, it is a dynamic website built on Next.js, empowers users—whether developers or learners—with an extensive roadmap for their developer journey. My key contributions included significant frontend development.

EXPERIENCE

1. Web Development and Design Intern (CompWallah)

Mar 2024 - Present

- o Served as a Web Development and Design Intern at CompWallah, where I contributed to the development and enhancement of various frontend applications.

2. Web Developer (GDSC KIIT)

Mar 2024 - Present

3. Project Partner - (MLSA X ProjectWing 2024)

Feb 2024 - Mar 2024

- o As a Project Partner at MLSA Project Wing 2024, I played a pivotal role in the success of the AlgoArena project. My key contributions included significant frontend development.

CERTIFICATES

1. [React Certificate](#) | HackerRank

Issued Jan 24

Credential id: 331752decb60

2. [SQL Certificate](#) | HackerRank

Issued Jul 21

Credential id: 9be468c935e5

TECHNICAL SKILLS

Programming Languages: C, C++, Java

Familiar with: Python, React, JavaScript, HTML, CSS, Tailwind, MySQL

Developer Tools: Git, Sublime Text, Visual Studio, IntelliJ

Others: Competitive Programming, Data Structures & Algorithms

Touch Typing: 80+ wpm
